# FORWARD THINKING LEADERSHIP

What single quality differentiates exceptional leaders from ordinary leaders?  
It's: 'forward thinking': the ability to engage your people in a journey towards  
a better future.

As a forward thinking leader, you are the oxygen to keep the fire of change burning.  
You don't look at the work that is in front of you, but the work that is ahead of you.  
You spot future possibilities, generate inspiring ideas and engage your team in the  
change that is needed.

You are the change you need in your team.

On September 28th, world class experts in Forward Thinking Leadership come  
together in the Netherlands for a unique seminar. Featuring a moderated Q&A  
conversation with President Barack Obama.

Change will not come if we wait  
for some other person or some  
other time. We are the ones we've  
been waiting for. We are the  
change that we seek.

Barack Obama

## PRESIDENT BARACK OBAMA

President Obama will close this seminar with a moderated Q&A conversation on leadership, change and forward thinking.

### About President Barack Obama

On November 4, 2008, Barack Obama was elected the 44<sup>th</sup> President of the United States, winning **more votes than any candidate in history**. He took office at a moment of crisis - unlike any America had seen in decades – a nation at war, a planet in peril, the American Dream itself threatened by the worst economic calamity since the Great Depression. And yet, despite all manner of political obstruction, Obama's leadership helped rescue the economy, revitalize the American auto industry, reform the health care system to cover another twenty million Americans, and put the country on a firm course to a clean energy future – all while overseeing the **longest stretch of job creation in American history**.

In times of great challenge and change, President Obama's leadership ushered in a stronger economy, a more equal society, a nation more secure at home and more respected around the world.

The Obama years were ones in which more people not only began to see themselves in the changing face of America, but to see America the way he always has – as the only place on Earth where so many of our stories could even be possible.

Barack Obama and his wife, Michelle, are the proud parents of two daughters, Malia and Sasha.

When times get tough,  
we don't give up. We get up. Barack Obama
